

CS Spine Frame

Product Code - CSM-2715

The CS Spine Frame is a cost-effective tabletop platform that fits all standard operating tables. The frame is fully radiolucent and the body supports allow the abdomen to hang freely to reduce venal pressure.

250kg patient weight capacity.

Crescent shaped chest support reduces the chance of Brachial Plexus injury and enables easier positioning of the breasts.

The innovative design of the supports allows the abdomen to hang freely to reduce venal pressure.

CS Prone Patient Supports

Prone Patient supports

The CS prone patient supports are compatible with all Allen®, and Jackson style spine tables.

Quick release Secure lock

The innovative clip locks the support securely to the rails for safer patient transfer. The quick release function allows for easy repositioning when required.

Large Hip Supports

The increased surface area of the pad provides additional support for larger patients.
